What does the 10 times World Champion **OLAV LUNDANES** 🇳🇴 say about us?

“In my opinion **Maximus Winter O-Camp** has it all.

Great terrain, with big variety from super-fast to super-technical areas, short driving distances, good weather conditions and accommodations for all needs.

*What point out comparing to other locations is the possibilities to run the SportIdent trainings: **3 trainings per week with SI, flags and results is not something you get somewhere else.***

Olav Lundanes

What do some of the world class athletes say about us?

Vojtěch Král 🇨🇪: "Burgohondo has many good opportunities for different kinds of trainings. Well drawn maps in technical terrains. With strong and hardworking team of Maximus it all together makes **a great place for winter camp that you should experience!**"

Matthias Kyburz 🇨🇭: "Maximus Winter O-Camp was a great season preparation. **Demanding terrains, good maps and high quality competitions** were key elements that the camp became a success. We would have been more than ready to start the season in the best possible way after the camp in Burgohondo."

Lucas Basset 🇫🇷: "Maximus camp offered **trainings and service of a quality way over my expectations!** Terrain and trainings were perfect for a really technical experience getting out of winter and setting the base for a successful competition season. And on top of that, the organizing team was available for any question or specific requirement, which is great to personalize your camp! Will go to Burgohondo again for sure!"

Marika Teini 🇫🇮: "Burgohondo area was a new experience for me last year and I was happy to **find lots of new interesting and demanding orienteering terrains**. Most of them were really close to our accommodation so we didn't have to waste time sitting in the car. Also we found nice mountain trails for long runs and hikes with great views. Really good place to develop one's orienteering skills."

Mark Nixon 🇬🇧: "The Maximus Winter O-Camp gives **you everything you need for a high-quality training camp**. Great terrain, great maps, and great courses. The team are great, and will help you every step of the way to create your ideal camp. Having pre-planned training with SI-timing meant I could spend my time coaching, not putting out controls. Warm and comfortable accommodation in beautiful Burgohondo is the perfect place to be in winter. Give it a try, you won't regret it!"

Marianne Andersen 🇳🇴: "I think the area around Burgohondo is really good for basic orienteering training, with interesting and varied terrains. The trainings were also both varied and comprehensive, **so you could really tailor your own perfect training week**. The only negative thing I have to say about my stay, is that I was injured and couldn't run as much as I wanted. But fortunately, the possibilities for alternative training were also great, and the area is really nice also for cycling."

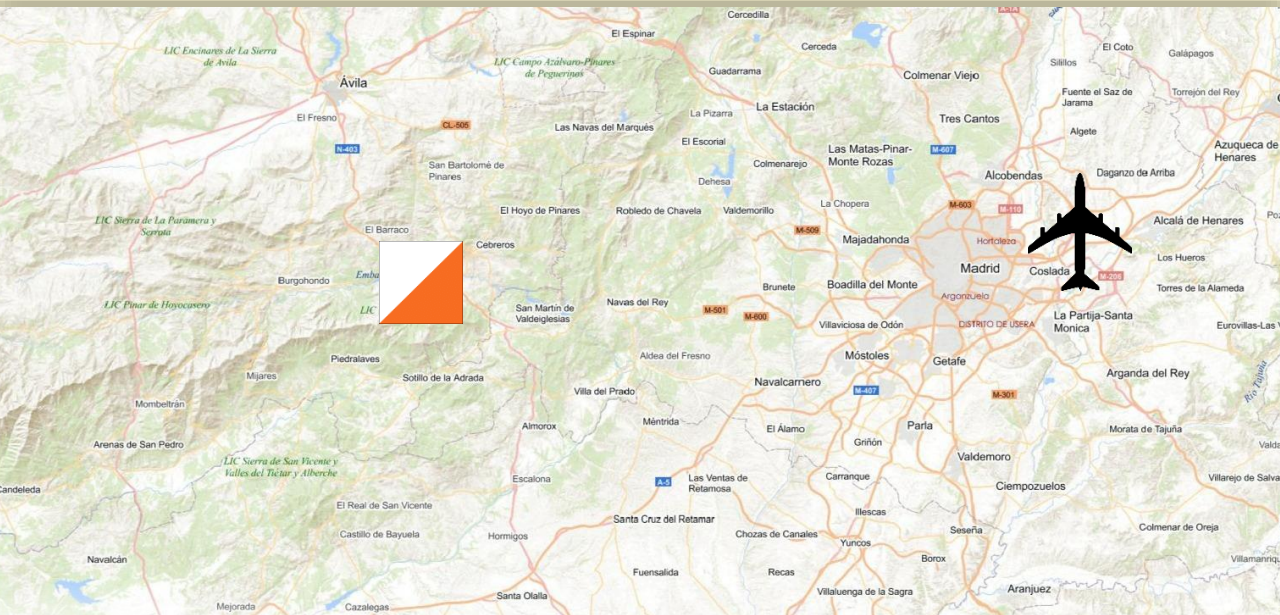

Catherine Taylor 🇬🇧: "Maximus camp was a great place to kickstart technical training this year after a winter of running. We were offered **a complete technical and physical challenge on an exciting variety of maps**, from fast and open terrain to test skills at high speed to somewhere like Infierno, where even a slower running speed gives really difficult orienteering. One camp wasn't enough to master these (at least for me) so there's a good chance I'll be back for more!"

Gernot Ymsen 🇦🇹: "We really enjoyed our stay in Burgohondo. Many different challenging technical exercises, mostly close to our very good accommodation, great landscape for long distance running or biking and alternative training possibilities. Especially if you want to improve your technic in stony but good runnable terrain, **it's heaven on earth for an orienteer**. It's just a question of time until we will be back after our visit in 2020."

Location

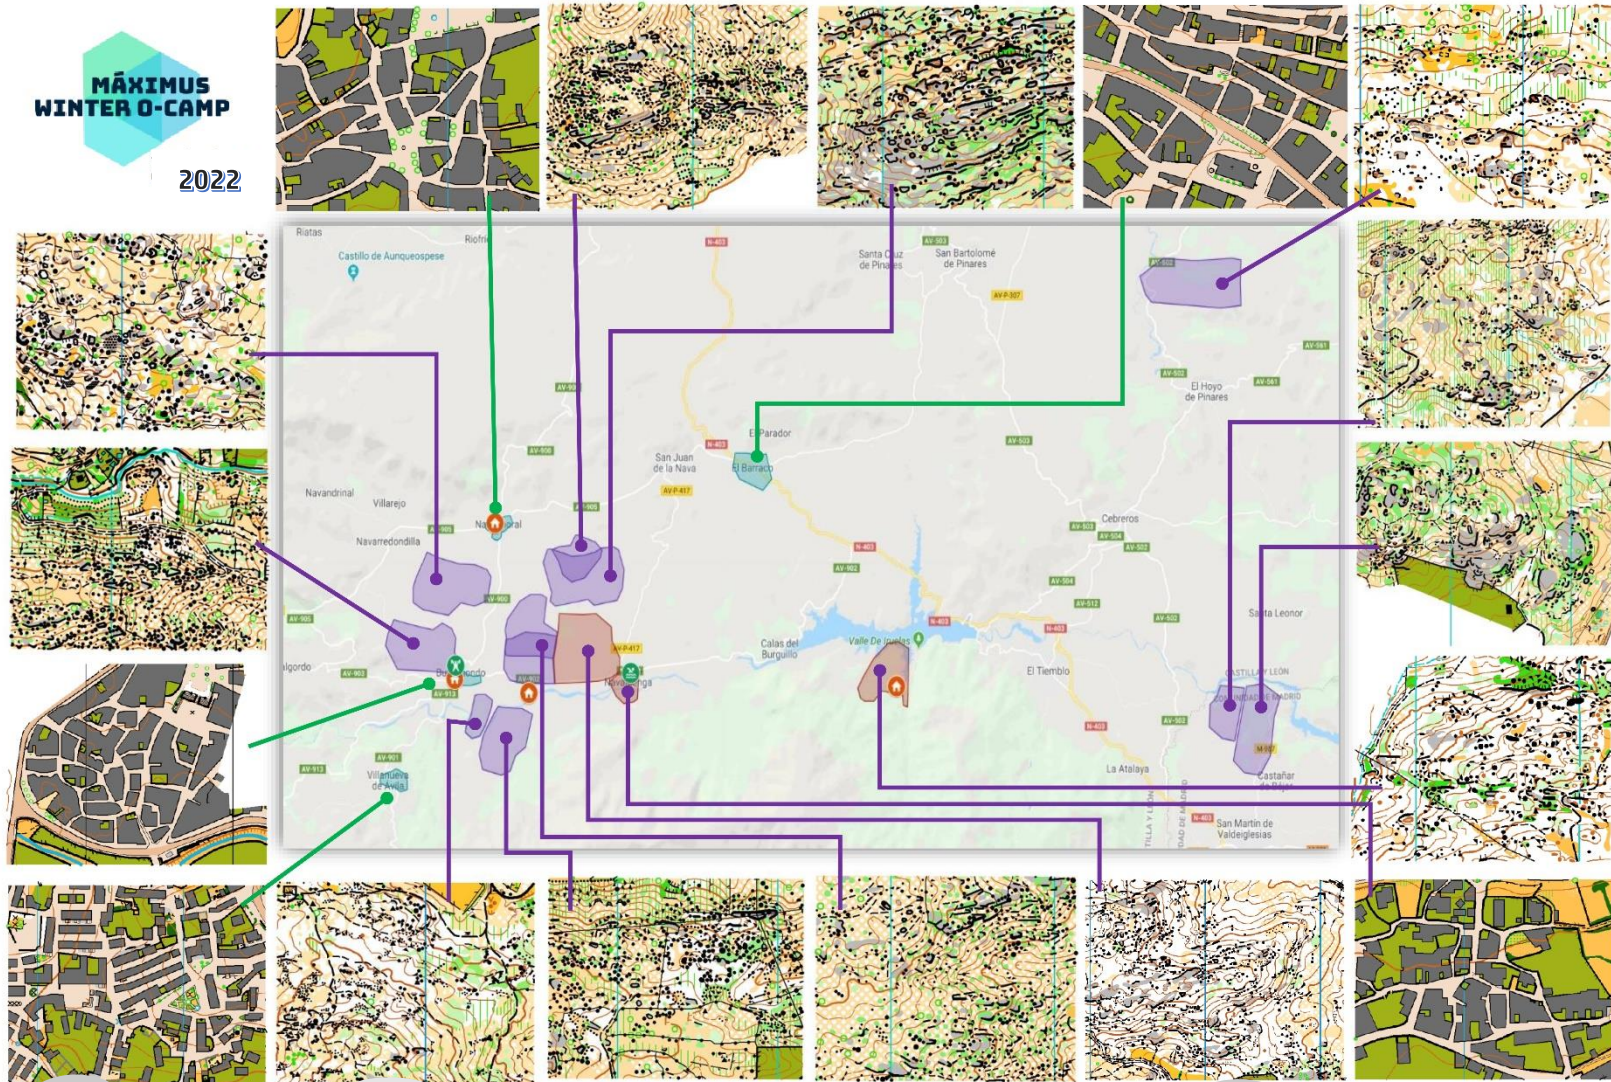

Our training area is situated in the central part of Spain, Ávila province, and only **1.5 hours driving West from Madrid**, where the main airport “Adolfo Suárez – Barajas” offers many both good and cheap flying options.

Map locations

Once you reach our training area, it is possible to go just jogging to some of the training maps. The main part of the them are situated **less than 20' driving**, and the most far away ones, not more than 45' driving from Burgohondo.
